RATING ACTION COMMENTARY

Fitch Revises BOAD's Outlook to Stable; Affirms at 'BBB'

Wed 17 Nov, 2021 - 09:10 ET

Fitch Ratings - Paris - 17 Nov 2021: Fitch Ratings has revised the Outlook on Banque Ouest Africaine de Developpement's (BOAD) Long-Term Issuer Default Rating (LT IDR) to Stable from Negative and affirmed the rating at 'BBB'.

KEY RATING DRIVERS

The revision of the Outlook is driven by a strengthening in our assessment of the bank's shareholders' capacity to support following the recent upgrades of the LT IDRs of two of the bank's member states: Cote d'Ivoire to 'BB-' from 'B+' in July, and Benin to 'B+' from 'B' in October. BOAD's support-driven rating would now be unchanged even if the French sovereign LT IDR (AA/Negative) was downgraded by one notch, all else unchanged.

The risk of a weakening in shareholder support for BOAD following a downgrade of France was the main reason for the revision of the Outlook on BOAD's LT IDR to Negative in May 2020 (we affirmed France's rating in November). Given the role played by France in the CFA franc monetary arrangement as the guarantor of the convertibility of the currency against the euro, a downgrade of France's rating to 'AA-' would affect our assessment of the credit quality of the bank's largest shareholder, the Banque Centrale des Etats de l'Afrique de l'Ouest (BCEAO, not rated, which owns 47% of BOAD's capital).

BOAD's 'BBB' rating is primarily driven by extraordinary support from its key shareholders, BCEAO and Cote d'Ivoire (6% of capital). Fitch assesses the capacity of the key shareholders to provide support at 'bbb-', taking into account their average credit quality. BCEAO's ability to tap the fiscal resources that it manages on behalf of its...
member states to secure payment of capital increases translates into an 'exceptional' propensity of shareholders to support, and a one-notch uplift over the capacity to support, leading to a support assessment of 'bbb'.

Fitch's assessment of BOAD's Standalone Credit Profile (SCP) is 'bb+', unchanged from the previous review in May, reflecting its solvency assessment of 'bbb+' and a three-notch negative adjustment, resulting from the high-risk business environment in which the bank operates.

BOAD's solvency balances its 'strong' capitalisation, with an equity-to-assets and usable capital to risk-weighted assets ratios, both at 29% as of end-2020, against a 'moderate' risk profile. The average rating of loans was 'B' as of end-2020. The loan performance is enhanced by BOAD's preferred creditor status. Non-performing loans accounted for 2.7% of total loans as of end-2020.

Fitch assesses the bank's liquidity at 'a'. The assessment reflects the 'strong' coverage of short-term debt by liquid assets and the bank's proven access to capital markets. BOAD's access to the regional central bank's refinancing window is a rare feature for a multilateral development bank and enhances Fitch's overall liquidity assessment.

We expect the key features of the monetary arrangement with France, including the peg to the euro, the pooled regional reserves and the convertibility guarantee from the West African CFA franc to the euro, will remain unchanged in the medium term. We also expect the parity of the West African CFA franc with the euro will remain unchanged.

The Short-Term rating of ‘F2’ is the higher option at the ‘BBB’ cusp point on Fitch's long-term rating correspondence table. The choice of the higher option results from the bank's liquidity assessment of 'a', which is higher than the level equivalent to the minimum Long-Term rating (BBB+), at which the higher Short-Term rating (F2) would always apply.

**RATING SENSITIVITIES**

Factors that could, individually or collectively, lead to positive rating action/upgrade:

Support (capacity): A strengthening in Fitch's assessment of BOAD's key shareholders capacity to provide support. This could stem from an improvement in the credit quality of BOAD's current key shareholders or a change in the structure of the bank's capital that leads to a marked increase in the share of capital owned by one or several non-regional highly-rated shareholders.
SCP (solvency/business environment): Material improvement in the bank's solvency assessment. This could result from a combination of a significant strengthening in the capitalisation and risk profile or an improvement in Fitch's assessment of the bank's business environment.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

Support (capacity): A weakening in the support assessment, which would stem from a deterioration in the credit quality of BOAD's main shareholders or a change in the structure of the bank's capital that dilutes the share ownership of the BCEAO.

SCP (solvency): Deterioration in BOAD's solvency assessment, potentially stemming from a worsening of the bank's credit risk profile and/or weaker-than-expected capitalisation in the medium term.

SCP (liquidity): A material deterioration in Fitch's liquidity assessment, which could result from a weakening in the coverage of short-term debt by liquid assets and/or a weakening in the quality of treasury assets.

BEST/WORST CASE RATING SCENARIO

International scale credit ratings of Sovereigns, Public Finance and Infrastructure issuers have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of three notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of three notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit https://www.fitchratings.com/site/re/10111579.

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

BOAD's 'BBB' rating is primarily driven by extraordinary support from its key shareholders, BCEAO and Cote d'Ivoire.
ESG CONSIDERATIONS

BOAD has an ESG Relevance Score of ‘4[+]’ for Human Rights, Community Relations, Access and Affordability. BOAD provides concessional loans to its member states funded by concessional resources provided by its shareholders. This supports BOAD’s policy importance and shareholders’ propensity to support the bank. This has a positive impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

BOAD has an ESG Relevance Score of ‘4[+]’ for Policy Status and Mandate Effectiveness. It has access to the BCEAO’s refinancing window, which is a rare feature for supranationals and supports the bank’s liquidity profile. This has a positive impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

BOAD has an ESG Relevance Score of ‘4’ for Governance Structure. High capital ownership by borrowing countries with weak credit fundamentals and limited access to external funding have led to pressure to increase lending. This risk has been partly mitigated by a fairly high share of voting rights held by non-regional members at the board. This has a negative impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

BOAD has an ESG Relevance Score of ‘4’ for Rule of Law, Institutional and Regulatory Quality. All supranationals attract a score of ‘4’. Supranationals are neither subject to bank regulation nor supervised by an external authority. Instead, supranationals comply with their own set of rules. Fitch pays particular attention to internal prudential policies, including compliance with these policies. This has a negative impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

Unless otherwise disclosed in this section, the highest level of ESG credit relevance, if present, is a score of ‘3’. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or to the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg.

an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US$1,000 to US$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US$10,000 to US$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers. For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001. Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see https://www.fitchratings.com/site/regulatory), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
SOLICITATION STATUS

The ratings above were solicited and assigned or maintained by Fitch at the request of the rated entity/issuer or a related third party. Any exceptions follow below.

ENDORSEMENT POLICY

Fitch’s international credit ratings produced outside the EU or the UK, as the case may be, are endorsed for use by regulated entities within the EU or the UK, respectively, for regulatory purposes, pursuant to the terms of the EU CRA Regulation or the UK Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019, as the case may be. Fitch’s approach to endorsement in the EU and the UK can be found on Fitch’s Regulatory Affairs page on Fitch’s website. The endorsement status of international credit ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
