Fitch Affirms BOAD at 'BBB'; Outlook Stable

Wed 11 May, 2022 - 13:34 ET

Fitch Ratings - Paris - 11 May 2022: Fitch Ratings has affirmed Banque Ouest Africaine de Développement (BOAD)'s Long-Term Issuer Default Rating (LT IDR) at 'BBB' with a Stable Outlook.

KEY RATING DRIVERS

Support-Driven Rating: BOAD's 'BBB' rating is primarily driven by extraordinary support from its key shareholders, Banque Centrale des Etats de l'Afrique de l'Ouest (BCEAO, owning 47% of BOAD's capital) and Cote d'Ivoire (BB-/Stable, 6% of capital). Fitch assesses the capacity of the key shareholders to provide support at 'bbb-', taking into account their average credit quality.

Exceptional Propensity to Support: BCEAO's ability to tap the fiscal resources that it manages on behalf of the regional member states to secure payment of capital increases translates into an 'exceptional' propensity of shareholders to support, and a one-notch uplift over the capacity to support, leading to an overall support assessment of 'bbb'. This ability was recently illustrated when BCEAO was able to make the paid-in capital contribution to the bank on behalf of Mali, despite the Malian sovereign being unable to access its assets due to sanctions.

Rising Risk, Stronger Capital: Fitch's assessment of BOAD's Standalone Credit Profile (SCP) is 'bb+', unchanged from the previous review, reflecting its solvency assessment of 'bbb+' and a three-notch negative adjustment, resulting from the bank's high-risk business environment. In Fitch's view, BOAD is facing increased credit risk primarily in relation to the recent developments in Mali (12% of loans as of end-2021) but also due
to other regional (such as in Burkina Faso, 12% of the loan book as of end-2021) and
global (such as rising commodity prices) developments that could affect BOAD's
borrowers' credit quality. However, these risks are offset by the positive impact of the
expected issuance of a hybrid instrument, supporting the stable SCP.

**Strong Capitalisation:** Fitch's computed capital metrics, the equity-to-assets and usable
capital to risk-weighted assets ratios, were 29% and 27% as of end-2021, respectively.
The agency expects the bank will issue a hybrid instrument in 2022, significantly
boosting capital. Fitch's projections do not factor any new capital increase despite
ongoing discussions on a capital increase.

**Rising Credit Risk:** Fitch has revised credit risk to 'high' from 'moderate'. The sanctions
imposed on Mali by the ECOWAS currently prevent the Malian sovereign (8% of the
loan book) from servicing its debt to foreign creditors, including BOAD. Fitch's
assessment of the average rating of the loan portfolio has declined to 'B-' from 'B' at the
previous review, in line with rising credit risk. After accounting for BOAD's preferred
creditor status (the bank had only one sovereign default in the past 20 years, Niger in
2000), the average rating of loans is 'B+'.

**NPLs Expected to Rise:** Fitch projects non-performing-loans (NPLs) to increase
markedly from 2.9% as of end-2021 as per Fitch's methodology. Fitch expects Mali will
resume payments to the bank when the sanctions are lifted, by July 2022. However,
arrears to BOAD will have reached six months, which will prompt Fitch to consider the
whole exposure as non-performing. Fitch understands that the bank's non-sovereign
portfolio in Mali (4% of the loan book) has remained performing so far. However, the
economic impact of sanctions in the country poses downside risks to the performance of
these exposures.

**'Moderate' Risk Overall:** The bank's top-five largest exposures (all sovereigns)
accounted for 48% of total loans as of end-2021. The bank hedges its USD/XOF
exchange rate risk (arising from its US dollar Eurobond issuances) with cross-currency
swaps. Equity participation was 5% of total banking exposure in 2021. The bank's main
capital adequacy metrics are a Basel-type ratio and a leverage limit that caps debt at
three times the level of equity.

**Access to Central Bank Refinancing:** Fitch assesses the bank's liquidity at 'a'. The
assessment reflects the 'strong' coverage of short-term debt by liquid assets and the
bank's proven access to capital markets. Fitch only considers as liquid the deposits held
at the regional central bank and regional sovereign debt securities that the bank can
refinance with the central bank (after applying a 10% haircut). The liquidity assessment
is enhanced by BOAD's access to the regional central bank's refinancing window, a rare feature for a multilateral development bank.

**High Risk Environment:** BOAD's 'high risk' business environment primarily reflects the low income and high political risks in the countries in which the bank operates, including Togo where the bank's headquarters are located. The assessment also takes into account the exposure to non-sovereign risk (33% of banking exposure at end-2021), the bank's relatively small size and the importance of its public mandate. In recent years, BOAD has been the second most important provider of funds for infrastructure in WAEMU, just behind the World Bank.

**Short-Term Rating:** The Short-Term rating of 'F2' is the higher option at the 'BBB' cusp point on Fitch's long-term rating correspondence table. The choice of the higher option results from the bank's liquidity assessment of 'a', which is higher than the level equivalent to the minimum Long-Term rating (BBB+), at which the higher Short-Term rating (F2) would always apply.

**RATING SENSITIVITIES**

**Factors that could, individually or collectively, lead to positive rating action/upgrade:**

Support (capacity): A strengthening in Fitch's assessment of BOAD's key shareholders capacity to provide support. This could stem from an improvement in the credit quality of BOAD's key shareholders.

SCP (solvency): Material improvement in the bank's solvency assessment. This could result from a combination of stronger capital ratios and significant strengthening in the risk profile, for example, if sanctions on Mali were lifted and the Malian sovereign resumed loan repayments to BOAD, leading to a marked reduction in downside credit risk faced by the bank.

**Factors that could, individually or collectively, lead to negative rating action/downgrade:**

Support (capacity): A weakening in the support assessment, which would stem from a deterioration in the credit quality of BOAD's main shareholders or a change in the structure of the bank's capital that dilutes the share ownership of BCEAO.

SCP (solvency): Deterioration in BOAD's solvency assessment, potentially stemming from a worsening of the bank's credit risk profile or weaker capitalisation and loss absorption capacity in the medium term.
SCP (liquidity): A material deterioration in Fitch's liquidity assessment, which could result from a weakening in the coverage of short-term debt by liquid assets or a weakening in the quality of treasury assets.

BEST/WORST CASE RATING SCENARIO

International scale credit ratings of Sovereigns, Public Finance and Infrastructure issuers have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of three notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of three notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from ‘AAA’ to ‘D’. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit https://www.fitchratings.com/site/re/10111579.

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

BOAD’s ‘BBB’ rating is primarily driven by extraordinary support from its key shareholders, BCEAO (and Cote d’Ivoire (.

ESG CONSIDERATIONS

BOAD has an ESG Relevance Score of ‘4[+]’ for ‘Human Rights, Community Relations, Access and Affordability’. BOAD provides concessional loans to its member states funded by concessional resources provided by its shareholders. This supports BOAD’s policy importance and shareholders’ propensity to support the bank. This has a positive impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

BOAD has an ESG Relevance Score of ‘4’ for ‘Governance Structure’. A high share of capital ownership by borrowing countries with weak credit fundamentals and limited access to external funding has led to pressure to increase lending. This risk has been somewhat mitigated by a relatively high share of voting rights held by non-regional members at the board. This has a negative impact on the credit profile, and is relevant to the ratings in conjunction with other factors.
BOAD has an ESG Relevance Score of '4' for 'Rule of Law, Institutional and Regulatory Quality'. All supranationals attract a score of '4'. Supranationals are neither subject to bank regulation nor supervised by an external authority. Instead, supranationals comply with their own set of rules. Fitch pays particular attention to internal prudential policies, including compliance with these policies. This has a negative impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

BOAD has an ESG Relevance Score of '4[+] for 'Policy Status and Mandate Effectiveness'. BOAD has access to the BCEAO refinancing window. This is a rare feature for supranationals and supports the bank’s liquidity profile. This has a positive impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

Fitch has changed the ESG Relevance Score assigned to 'Labour Relations and Practices' (SLB) has to '2' from '3', given that restrictions on recruitment based on nationality or quotas is no longer considered to be relevant to multilateral development banks' ratings

Except for the matters discussed above, the highest level of ESG credit relevance, if present, is a score of '3'. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or to the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg.

DISCLAIMER & DISCLOSURES
All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link: https://www.fitchratings.com/understandingcreditratings. In addition, the following https://www.fitchratings.com/rating-definitions-document details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at https://www.fitchratings.com/site/regulatory. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the
particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided “as is” without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US$1,000 to US$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US$10,000 to US$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States
securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the “NRSRO”). While certain of the NRSRO’s credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see https://www.fitchratings.com/site/regulatory), other credit rating subsidiaries are not listed on Form NRSRO (the “non-NRSROs”) and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
